PROFESSIONAL SUMMARY

- As a front-end developer having expertise in front-end development and a highly motivated individual dedicated to writing clear, concise, robust code that works.
- I like creating products that either have fun and nifty features or solve genuine problems for people.
- My greatest strengths are logical thinking, working well in a team, and positive thinking.

PROFESSIONAL EXPERIENCE

Frontend Web Developer, *Navgurukul*   Aug 2022 – Apr 2023
                                                                                            Pune, India
- Written scalable, testable, and efficient code by using best software development practices.
- Created website layout/user interface by using standard HTML/CSS practices.
- Created a functional website by using standard React.js & Next.js.
- Was responsible for maintaining and scaling Company's website.
- Worked closely with the design team to match visual design intent.

UI/UX Designer (Intern), *Skygoal.Inc*   Mar 2022 – Jun 2022
                                                                                            Remote
- Created and maintained UI standards for 3+ websites, which included over 25 pages.
- Re-designed the website and decreased the bounce rate by 20%
- Did some front-end programming (HTML 5, CSS, JavaScript) to build an actual web-based prototype.
